KeyFolio Thin X2™ for iPad Air™ 2 — White

K97386UK

Product Description

The iPad Air™ 2 is light and thin, which means you're probably looking for a thin, lightweight keyboard case that's loaded with features to go along with it. Kensington has your answer with the KeyFolio Thin X2 for iPad Air™ 2. A sleek and form-fitting, hard-shell exterior surrounds the tablet in protection while maintaining its thin profile. When the KeyFolio Thin X2 is opened, it reveals an integrated Bluetooth keyboard that features 6 rows of high-performance scissor keys that include a row of dedicated shortcut keys, allowing you to be more productive using fewer keystrokes. The QuickFold™ design allows you to hide the keyboard beneath the iPad Air™ 2 to quickly and easily transition from typing mode to viewing mode. The KeySense™ Power Channel automatically turns the keyboard on and off when it's engaged or disengaged from the magnetic stand, helping conserve battery life.

Features

- KeySense™ Power Channel automatically turns the keyboard on and off
- Integrated Bluetooth® keyboard with 6 rows of high-performance scissor keys
- Ultra-thin, form-fitting cradle maintains tablet's sleek profile with enhanced drop protection
- QuickFold™ design hides keyboard to enable streamlined viewing mode
- Automatic tablet wake and sleep modes when cover opens or closes
- Magnetic closure for a safe and secure fit
